

## **Blockchain based E-procurement**

Centre for Smart Governance Karnataka is a premier software development agency of the Government of Karnataka that works in emerging tech domains such as blockchain, cybersecurity, etc. to cater to the modern-day IT requirements for the state of Karnataka and the nation. CRUBN, C3ihub incubated Startup, has teamed up with Centre for Smart Governance to develop a permissioned blockchain network as a decentralized trust and efficiency layer for all eGovernment Procurement (e-GP) systems across the country.
